THE BEST KEPT SECRET IN PRINTING & BINDERY SERVICES

UNICOR Services Business Group

Welcome to UNICOR Printing Services

The Services Business Group currently operates three state-of-the-art printing operations located throughout the United States. Our primary goal at each location is to provide high quality process color printing and complex bindery services. Our finished products are top quality and meet all customer specifications. We have years of experience in meeting and exceeding our customer orders.

A Wide Range of Services with One-Stop Shopping

Our strength lies in printing the kinds of jobs most government agencies require. Our versatility and flexibility allow us to handle most print requests, whether it's for a million envelopes or a small run of administrative manuals, and just about everything in between!

Personal Service From Start to Finish

When you work with UNICOR, you're not sending your job to an unknown entity. Your relationship with us is personal because you'll work closely with one of our highly qualified print or distribution specialists. They track your job from the first day to make sure you get exactly what you want, when you want it. They answer technical questions, give you quotes, and make on-site visits to your agency.

Guaranteed Quality from Set-Up to Shrink Wrap, and Everything in Between!

Our facilities and personnel give us the ability and knowledge to cover all aspects of your printing needs and requests.

Our 23-point quality check system, verifying image quality and job specifications at all points in the layout and printing processes, ensures your job will be printed to your satisfaction.

There is No Need to Let the Bidding Process Add Lengthy Delays to Your Job

With UNICOR, (another government agency) no bidding is necessary! UNICOR is also authorized by the Congressional Joint Committee on Printing (JCP) to provide quality printing services to the Federal Government. *(Joint Committee on Printing, Congress of the United States, Government Printing and Binding Regulations, No. 26, Paragraph 47, Page 24.)*

THE BEST KEPT SECRET IN PRINTING & BINDERY SERVICES

Pre-Press

UNICOR's Pre-Press Departments offer digital or conventional services. We have extensive knowledge to support workflow from both Mac and PC platforms. We have the capabilities to design, from concept to finish, a wide range of marketing materials or simply use the customer's completed files for output.

Commercial Quality Conventional Printing

Our Printing Departments specialize in high-quality commercial printing. With a choice of multiple presses using web and offset printing, every job, from a 3-1/2" x 5-1/2" label to a 40" target, or from a 4-1/4" x 5-1/2" notepad to a 200 page book, can be completed with the highest print quality through this highly efficient and cost effective process. Our record is shown by the list of customers we have; the Department of Justice, Department of Agriculture, General Services Administration and a myriad of other government agencies.

Digital Printing on the Nexpress

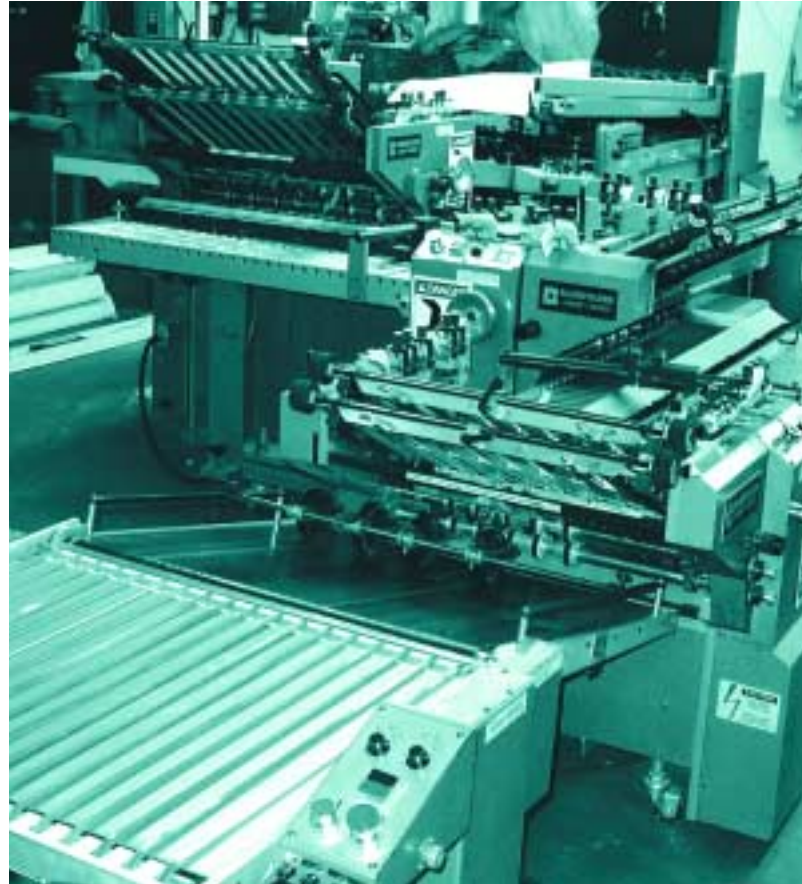

We have the Nexpress, the latest in digital printing technology. No film or plates required. Just supply your digital files and it can produce four color quality short run brochures at a cost effective price.

Envelope Printing

Our Envelope Press Department consists of highly skilled and experienced personnel operating Halm-Jet presses with the capability of printing large or small orders. We offer single and multi-color envelope printing on common or custom-order envelopes ranging in sizes from 3-5/8" x 6-1/2" all the way up to 12" x 16".

Bindery

UNICOR offers a full service in-house bindery with an array of programmable cutters, folders and stitcher-collator-trimmers to handle elaborate collated material and books. Our facilities provide us with ample space to consolidate all

of our customer's printing for assembly, fulfillment and distribution. And like the other services we offer, we perform our fulfillment and distribution functions with accuracy, speed, efficiency and great attention to detail. Additionally, we can be an outsourcer to the commercial sector under our repatriation authority for bindery services only.

Quality Assurance Guarantee

Our pledge to you is "Total Customer Satisfaction" and that translates into strict quality control. Beginning with your incoming purchase order, SF-1 or 2511, and reproducible materials, each phase of the printing process is reviewed by a quality assurance inspector. We guarantee your satisfaction.

If problems arise, you'll find they are taken care of promptly. Our quality meets the standards of the most demanding end user. From Project Managers to the pressmen, your work is handled by professionals at all levels of production.
